Professional Summary

Results-driven Technical Project Manager with 8+ years of experience leading complex, **cross-functional** technology programs in **5G**, **IoT**, **Servers**, **Wi-Fi** & Networking. Adept in **Agile** practices, stakeholder engagement, budgeting, and global delivery. Proven track record with industry leaders like **Qualcomm**, **Intel**, **NVIDIA**, and **MediaTek**. Experienced in cross-cultural collaboration across **Singapore, China, the US, Germany, and APAC**.

Core Competencies

- Project & Program Management (**Agile**/**Scrum**/Hybrid)

- Cross-Functional Team Leadership

- Strategic Clients & Account Management

- Budgeting & **P&L** Accountability

- R&D in **5G**, **IoT**, **Servers**, **Wi-Fi** & Networking

- Business Roadmapping & Delivery Oversight

- Global Execution (Singapore, APAC, US, EU)

- Stakeholder & Executive Communication

- Product Compliance & Certifications

Professional Experience

Project Manager

VVDN Technologies Pvt. Ltd., Singapore

June 2020 - Present

- Delivered multi-million-dollar tech programs across **5G**, **IoT**, **Wi-Fi**, software, and server infrastructure.

- Led **cross-functional** teams (50+ members) across Singapore, China, US, Germany, and APAC.

- Managed strategic accounts with **Qualcomm**, **Intel**, **NVIDIA**, and **MediaTek**.

- Owned full project lifecycle: scope, planning, risk, execution, closure.

- Oversaw budget, cost optimization, forecasting, and **P&L**.

- Directed R&D on **5G** phones, tablets, routers, switches, UBRs, **IoT** devices, and cloud-scale servers.

- Drove **Agile** ceremonies: **Scrum**s, planning, retrospectives, backlog refinement.

- Handling multilple client accounts for R&D and manufacturing projects

- Handling Project Billings and payments from clients

- Weekly review with Clients and stakeholder to post regular project updates

- Delivered **PoC**s and **MVP**s with silicon partners to fast-track adoption.
- Ensured local/global **compliance** and **certification**s (FCC, CE, IMDA).
- Managed 20+ successful end-to-end product launches including EBOM, MBOM, packaging, software, and vendor negotiation.

Digital Marketing Analyst

Network Bulls, India

May 2018 - June 2020

- Managed loyalty programs and digital marketing campaigns.
- Created visual reports and dashboards for performance analysis.
- Coordinated internal reviews and supported project tracking.

Testing Engineer

OPPO Mobiles, India

March 2017 - November 2017

- Conducted user acceptance testing for OPPO app store.
- Monitored performance across devices and reported bugs.

Selected Project-Based Accomplishments

- $110M cross-regional **5G/IoT** program with 62+ engineers - first-mover advantage for APAC telecom clients.
- Delivered enterprise **Wi-Fi** 6 routers and UBRs for **Reliance Jio** and **Airtel**, ensuring FCC/CE **certification**.
- Reduced **time-to-market** by 20% via **Agile PoC** for edge-compute servers tailored to European client needs.
- Achieved IMDA, CE, and FCC **compliance** for embedded **IoT** devices using **Qualcomm** and **Intel** processors.
- Coordinated with **Qualcomm**, **HPE**, and **NVIDIA** to cut server project costs by 20% through optimized vendor planning.
- Currently delivering **KAVACH** and **Axle Counter** railway safety systems across India and Europe, enhancing safety and operational reliability.
- Improved global product launch KPIs by over 15% through **cross-functional** collaboration in R&D, sales, manufacturing, and marketing.
